A WORD FROM CEO & FOUNDER DATO' GEORGE LIM

2
PAST EVENTS & HAPPENINGS: JAN - MAY 2017

9
FUTURE ENDEAVOUR: XERO + CIMB "DOING BUSINESS ON CLOUD"

A word from
DATO' GEORGE LIM SU CHUNG
Founder & CEO of G&A Group

Dato' George Lim founded G&A Group of Companies since 1999. He holds a Master degree from Hult Global 21st Business School. He had more than 28 years' experience in the audit practice with extensive experience in business consultancy services and tax works. He obtained licenses as Approved Auditors and Tax Agent.

Over the past months, we have organized various events here at GASpace, and we have invited various speakers from many industries to share their entrepreneurship experiences. We hope these efforts will continue to build and grow our clients as well as the local entrepreneurs too.

We are having a big event come 21st July 2017 & 22nd July 2017 – Doing Business on Cloud – at GASpace, Kolam Centre Hiltop and at CO3 Social Space, Kuala Lumpur, respectively. This would be the launch pad of CIMB Easy Biz, where small business clients will be able to directly create feeds to online accounting software giant Xero within the bank's internet banking platform. With the integration, the process could be completed overnight, shaving days or even weeks off compared with the way bank feeds are set up currently. A bank feed allows users to automatically import bank transactions to cloud accounting applications instead of manually entering the information.

We believe in the phrase of "Keep Innovating" and that's what G&A has been doing throughout the years. We hope to organise more informative seminars and events to our clients, and also educate them with upcoming & latest technologies.

We thank those who have been supporting G&A. Thank you!
